WHY CHOOSE IT

Makes the product and farm information easy to discover.

DESIGNED FOR

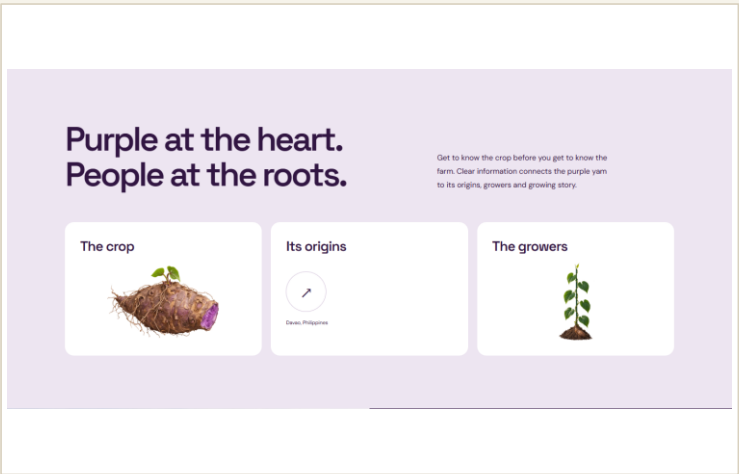

Prospective buyers and international partners.

COLOR DIRECTION

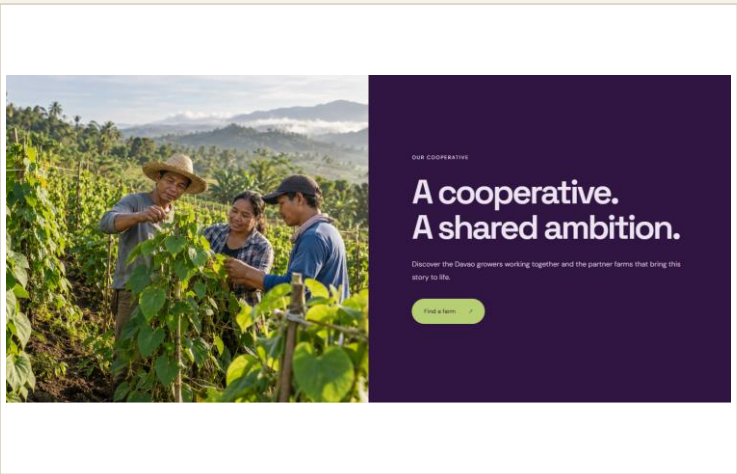

Put purple yam in the spotlight.

Proposed scroll behavior. These previews show composition and content; photography is illustrative.

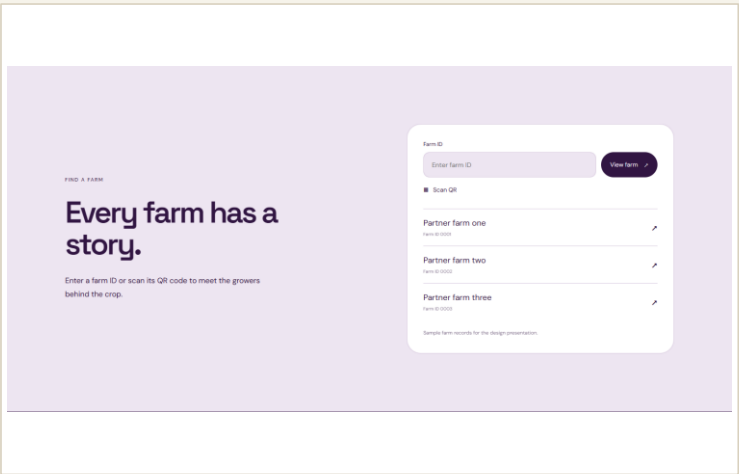

01 The crop comes forward

The large yam turns slightly as the hero gives way to clear product and origin information.

02 Roots connect to growers

Purple and pale sections exchange focus. Grower photography enters as one bold visual panel.

03 From interest to discovery

The product journey resolves into farm lookup. ID, QR and partner links lead to the same farm profile.
